

GTI CMB-3052 / 3064 ColorMatcher

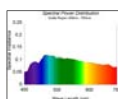

- Color matching system with 5 different light sources for color evaluation.

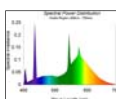

Simulated daylight D65, Storelight TL84, Homelight A, Officelight TL83, and UV.

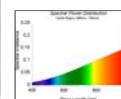

Daylight D65

Storelight TL84

Homelight A

- Light sources can be substituted per request.
- Painted in neutral Munsell N8 grey.
- Meets the requirements for the ASTM D1729 standard (including CIE Publication 51) for light quality, intensity, viewing symmetry, environmental conditions, and uniformity.
- Equipped with GTI's "ColorGaurd II" digital lamp monitor, showing lamp hours used and when to relamp.
- Programmable electronic light source sequencing, allowing for custom sequencing patterns using illuminated push buttons
- Improved reflection lens technology for even light distribution.
- Removable side walls to allow viewing of larger prints
- "Instant On" function, switch between light sources without dark pauses!
- Minimal maintenance costs due to easy lamp replacements
- Stable, hygienic steel construction
- Optional height adjustable floorstand
- Optional file drawers and shelves
- Accessories such as the 45° Visual Stand (VS-3052); the 61 cm wide VVT-1224 with adjustable angle; and black panel inserts also available
