

## GTI CRD-1 Color Rendering Demonstrator

- A valuable tool for training and communicating.
- Color rendering device with 3 separate chambers, displaying the importance of standardized lighting, and the effect various light sources can have on different colors.
- See the same product or image under 3 diverse light types at the same time!
- Officelight, Simulated Daylight, and Homelight A.
- Painted in neutral Munsell N8 grey.
- Also perfect for evaluating a wide range of sample types.
- Saves you from the time-consuming discussion of light and color.
- This device can also be implemented for color design and production.

**Dimensions:**  
Viewing Surface: CRD-1  
3 x DIN A4  
Outer Dimensions (W / D / H): 76 x 17 x 43 cm
