

## GTI MM-4e MiniMatcher

- Match and evaluate colors confidently under various light sources with GTI's Color Matching System
- Daylight D65/D50, Homelight A, Officelight TL84 and TL83, and UV

- Light sources can be substituted (for example CWF instead of TL83)
- Painted in Munsell N8 neutral grey
- Meets the requirements for the **ASTM D1729** standard (including CIE Publication 51) for light quality, intensity, viewing symmetry, environmental conditions, and uniformity
- Programmable electronic light source sequencing, allowing for custom sequencing patterns using illuminated push buttons
- Built in Daylight lamp timer to monitor usage
- Stable, hygienic, and easy to clean metal cabinet
