

SW = Side Walls

- Side walls for the EVS Color Viewing systems
- Minimizes the influence ambient light can have on your viewing surface
- Set comes with 2 pieces, left and right walls
- Easy to install, simply slide them into your booth between the frame and rear wall/floor
- Steel construction is stable and clean
- Can be removed at any time
- Painted in neutral Munsell N8 grey
- Can be installed retroactively

Side Walls (SW) installed in
a EVS-1/FD
