

## GTI GLE — Workplace Luminaires

- Luminaires for workplaces where Desktop Viewers are not practical.
- Daylight D50 (unless otherwise specified)
- Even illumination of small to large areas
- Optional „LightGaurd II“ lamp monitor (/LG)
- Digital (/SP) or analog (/D) dimmer options available
- Spectrally neutral parabolic diffusers for durable, balanced illumination
- All GLE models can be hung from the ceiling by chains
- **All basic GLE models can be hardwired for cost efficiency**
- **Equipped with On/Off switch and a slim modern design**
- Low maintenance costs through easy relamping
- All luminaires are supplied with the mounting bracket for hanging from the ceiling. They can also be shipped with brackets for direct ceiling mounting, per request.
